

Installation on Windows Vista

These installation instructions are for Windows Vista users only. In case you have another Operating System installed on your home PC, please refer to the Installation Instructions in the multi-lingual flyer inserted in the software pack.

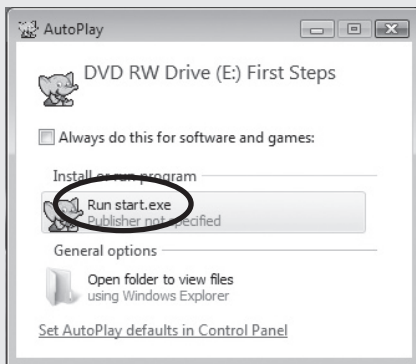

Before starting, please note:

* You must have Flash plug-in installed on your computer to run Comfy games on Vista OS (If you don't have it, you may download it from www.adobe.com).

**During installation, you will be prompted in several occasions by Vista to allow the process and program to run. Please use the "allow" option, otherwise you will not be able to run the games.

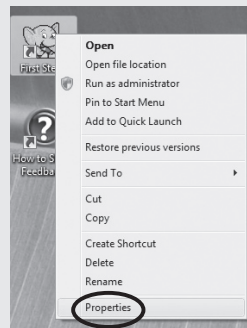

Installation Instructions

1. Insert the game CD into your CD-ROM drive.
2. The below message will appear. This message lets you choose what action you would like to perform with the CD. Please choose "Run start.exe".

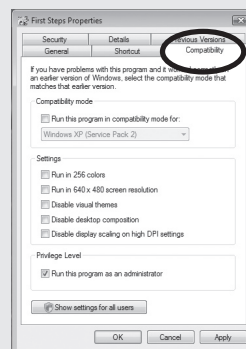

3. The next message that will appear is "A program needs your permission to continue", this program is the setup.exe, please click "continue".
4. Follow the installation instructions displayed on the screen.
5. Press "Finish" to complete installation.

6. A Comfy icon will appear on your computer desktop and in the "Start" sub-menus, right click on the Comfy icon and choose "Properties".

7. Under "Compatibility" tab, mark "v" in the check box next to "Run this program as administrator" and click "OK".

8. Re-start your computer.
9. Installation has completed. Double click on the Comfy game icon on your desktop to enter the game.
